ECOC 2007, Berlin, Germany

September 16th, 2007

Global Interoperability in Multi-Domain and Multi-Layer ASON/GMPLS Networks

- 09:00 **Introduction**
Hans-Martin Foisel, Deutsche Telekom , Germany
- 09:05 **OIF Worldwide Interoperability Demonstration 2007 – Ethernet On-Demand Services enabled by OIF UNI and E-NNI Functions**
Jim Jones, Alcatel-Lucent, United States
- 09:35 **OIF Worldwide Interoperability Demonstration 2007 – Results and Findings of the Control Plane Interoperability Test**
Jonathan Sadler, Tellabs, United States
- 10:05 **OIF Worldwide Interoperability Demonstration 2007 – Consideration from a Carrier’s Perspective**
Vishnu Shukla, Verizon, United States
- 10:35 – 11:00 Coffee break

Global Interoperability in Multi-Domain and Multi-Layer ASON/GMPLS Networks

- 11:00 **GMPLS – Current Status of Standardization Work**
Tomohiro Otani, KDDI R&D Laboratories Inc., Japan
- 11:30 **ASON – Current Status of Standardization Work**
Georg Lehr, Bernd Zeuner, Deutsche Telekom, Germany
- 12:00 **Application of ASON Multi-Domain Architecture to Internet2**
Lyndon Ong, Ciena, United States
- 12:30 **ASON/GMPLS based Interoperability and Interworking Solutions in the European MUPBED Multi-Domain and Multi-Layer Test Network**
Jan Spaeth, Ericsson, Germany
- 13:00 **End**

All presentations will be available
on the web page of the
IST project MUPBED
